

HOW CAN WE HELP?

“How can we help?” identifies our neighbours’ needs through practical help such as plant care, spare educative items, recreational items, deliveries, etc. Through a make-shift polling station, you can clarify what exactly your neighbours need help with!

HOW-TO-DO

- 1 Set up a polling station at a central location for easy access
- 2 Tell your neighbours about the project and encourage them to vote for their needs

- 3 Collect your results after a set time and help out with the needs identified
