

FIND YOUR WAY

Time to get to know your neighbour better. "Find Your Way" helps you find common interests with your neighbours, by starting conversations using directional signages along the corridor or street. Next time you will have a common topic to chat about when you bump into them!

HOW-TO-DO

- 1 *Set up the signages on the floor with the instruction manual*
- 2 *Ensure that the signages don't disrupt your neighbours' items*

- 3 *Wait for the templates to be filled so that you can navigate through your neighbours' interests*
